**DETAILED ACTION**

***Allowable Subject Matter***

The references fail to teach, disclose, or suggest, either alone or in combination, the core at the first end defining a holdable portion and the housing being molded into engagement with all external surface areas of the core except the holdable portion and molded into surrounding engagement with a portion of the terminal fitting between the second end of the core and the second longitudinal end of the terminal fitting, whereby the holdable portion of the core is supportable during molding of the housing around the core and the terminal fitting and in combination with the rest of the limitations of the base claims.

Applicant's arguments (Pages 5-6) with respect to the Sakaguchi reference have been fully considered and are deemed persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
